FRANCOLEGAL

Document coordination for your cross-border matters

Your firm retains the client and professional advice. We coordinate the documents.

Who we support

UK solicitors with France-facing matters, accountants, private-client and conveyancing teams, company secretarial providers and international corporate advisers.

Common instructions

French civil records needed for UK proceedings; certified FR–EN translation for UK authorities, banks and law firms; notarial deeds and source-of-funds supporting records; UK corporate documents intended for overseas use.

Our role

Review the receiving body’s documented requirements; identify the documentary route; issue a written quotation; coordinate translation, certification, apostille or legalisation where appropriate; provide agreed updates.

What remains with your firm

FrancoLegal does not provide legal, tax or immigration advice. Your firm retains its professional decisions, client relationship and regulatory checks.

Clear pricing

Published standard prices apply where available; otherwise we quote in writing before work begins. Our professional fees and third-party charges are separated. No referral commission or fee sharing.

An easy first step

Send us a brief description of the document, country of origin, recipient and deadline. Please do not submit passports or sensitive identity records via the public contact form.
